Whoa, are you aware of the posts going around Facebook about Escambia County and the superintendent continuing to bring his liberal policies to destroy this county? This is insane. I guess I will email our schools principal and say I want Cameron and Isla opted out of anything and everything including eye exams because they might ask if they see gay pride colors!!!!

Can you send me the links to the posts. He does have a record of leaning to the left.

Thanks

Which is why I did not vote for him.

Look at her page an it's on there.

Has there been any issues in elementary schools? We read multiple books a day and the process is such a drain!

I get that there are issues in the upper grades. And sadly those are the books teens are most interested.

It seems it depends on which way a teacher leans on politics.

I would believe a k-5 teacher would be smart enough to not report an age inappropriate book, but you never know

It is sad, but that's on the parent to buy if they want their child to read stuff like this, not for taxpayer to buy.

I do not believe this superintendent would inventory the books, but it is a transparency requirement mandated by the new statutes. He has no choice but to comply.

We've really got 2 issues here. Obviously children's performance in school and school employees starting to leave more frequently is important.

At the same time our children being taught things like critical race theory, or not having normal pronouns anymore, or having perverted test questions, or sinful literature in the school or the school library, are harmful to them.

We can sin against the Lord both by not providing a good education for children, and also by bringing wicked things into their lives that pervert and destroy them and put their thinking away from godly unstanding.

I told the superintendent he was forcing every teacher to recreate the wheel. A district team could of easily made a master list for each teacher to check off.

Thank you for the attachment. I have an injury to my hip at the moment. If books are moved to a library then they are not being censored. Parents that don't care what their kids read can go to the library. I remember taking sex education in high school but it was tastefully taught about changing bodies and hormones and heterosexual issues. This group of alphabet ppl and these ridiculous pronouns need to stay out of our schools. Thank you for following the law that the education department put in place.

I would take a Principle that loves the kids, loves her career and does their best for their education over credentials any day. Public schools do have a problem and

school boards are part of the problem. I watched a school board meeting from Charlotte and this mother was reading out of a book that is on the shelf in a middle school library, it's called, "This Book is Gay." It is absolutely horrible and the school board shut her up. I am not sure if it is on our list, I can't find the list again of the hundred plus books in question. The books that the teacher here read need to go, not in a special section, they have not place in any school! I hope more and more parents will protest this sickening and idiocy with these books. Tell the superintendent, those books are unacceptable! First chance I get I will write this man an email. This whole country is getting so sick and our children are being used in the entertainment of adults. That is so sick!

hanging around the tence with book bags, surely students there, the walkers. When they are not in school, their grades cannot be good, where are the parents when the school calls that their children weren't in school or got there late. I get the calls now from high school. I am a stickler with the schools and they know me, and they know that I care. The grandkids don't live with me, so it's a bit tougher for me to keep track, but I have their portals so I see and immediately step in. I have to say their tardinesses and absences show it in their grades, and that is how I feel puts down grades for certain schools if kids don't show up in school. I do not agree with the sliding scale for this year, it doesn't really reflect on the students actual performances. I saw my one granddaughter barely did any work, but the few times she did she got okay grades, and only they were counted. That is what I see when I look at their work on Canvas and Focus. I know you will all come up with something that is good for all. We do have to tackle the book situation though. Glad one book is gone. Keep up the good work. : Fetsko needs to stay!

so what y'all passed tuesday was just the permission to advertise the proposed policy change, right? This wasn't the actual passing of the policy, which will have to be at a future meeting.

You are correct, but the board and superintendent agreed to implement this policy immediately as we go through the legal steps to approve.

I am assuming you were referring to the book policy.

oh okay, which I think makes sense since it's a policy being implemented to comply with florida state law rather than just a policy you are creating.

yes, that's correct.

Yes sir you are correct in order to comply with state law.

One thing I'm still not clear about is whether books can be challenged on any other grounds than that they violate the obscenity statute, race bias for example. It seems like instructional materials yes library books no. Do I have that right?

Oh my gosh, I don't even know what to say. This is going to be a disaster, and you know that when the kids from Warrington go to those schools, many parents will take their kids out of those schools. Tim Smith did not put up a good fight at the meeting in Orlando, it was so weak that it caused whispers. And he got a good talking to by the Education board. I do not think that sending the children to other middle schools is the best solution. It will affect too many people and students also. The cost to Charters USA is huge. well the inspectors get the money right, I can't remember. So many things going on. OJ Simms is another school to worry about. I do have to turn the blame a little on the parents, as in Warrington kids get to school at all hours, my granddaughters included when they went to Warrington, I know that because I had to take them. Kids were hanging around the fence with book bags, surely students there, the walkers. When they are not in school, their grades cannot J good, where are the parents when the chool calls that

Hey Kevin I know today is a big day for you as well as tomorrow but from everything I'm talking to Vicki Baggett about regularly, the school and all their review committees that Mrs White oversees, and that Dr Timothy Smith the superintendent is over, not only continue to approve whatever perverted books they want, which makes these committees an enemy of the children, there are also more wicked books regularly coming into our school system. Per Vicki, our elementary schools have plenty of transgender and lesbian related books in them that clearly violate the law of God, and also violate hb1557 as well.

If these people are going to continue to pump as many books into our schools as they can and also have books that violate HP 1557 how can we continue to keep the superintendent employed so that he has two more years of doing this very same thing or worse? It's great to have a referendum to put the superintendent position back on the ballot but we need this man gone. We have to have a vote to remove him and replace him with someone else who is god-fearing. We cannot allow him to wreak havoc and do nothing about these things for two 'ole years while children continue to perverted under his influence and godlessness

If we do not remove him, just to be forthright, his stain upon our children in this county and causing them to sin and be sexually perverted will actually be upon those who have the power to remove him, which is the school board. Then you all will be responsible before God for allowing him to remain.

Yesterday I reached out to a Escambia board member to find out who are the people on a book review committee. Too many books have been approved that contain graphic language and pornography language. These are books that are in our educational system for children.

I had reach out to D5 School Board member Bill Slayton. One of His responses was that students (from Escambia Schools) were reviewing the books. The same books that have graphic language and pornography.

I also asked for the names of the adults that are on the committee, but Bill Slayton said that they are to remain anonymous. He feels the public will put too much pressure on these committee members. I think that he likes to be able to have an escape goat when issues arise. And that he enjoys the deep dark horror secrets. It's a lot easier to get awful agendas in place, when they are brought in by the darkness. Who would want light on to their corruption??

Everyone must vote a lot better. And these career politicians living in darkness must be called out to resign.

Unreal. So we won't ever know.
Meanwhile I submitted two appeals today. The first one is horrific and sexually explicit. The second one has pictures of two boys kissing.in our elementary schools.

Look like minor students will review the porn.

Vicki Baggett is responsible for almost every single complaint about these books. I believe Ms. Baggett holds undue sway over Escambia County's school libraries. Ms. Baggett's views should not unlaterally represent the views of Escambia County's schools and it's shameful that she is indoctninating youth by trying to have books like Uncomfortable. Conversations with a Black Boy and Stamped From the Beginning. The Definitive History of Racist Ideas in America removed for "Race Barting". She is obviously a privileged white woman who is trying to white-wash and hide uncomfortable truths from our students. Furthermore, it seems she is lying about actually finding these books in schools. She is just writing "High Schools" to evade the fact that these books aren't even in our libraries here anyway! Ms. Baggett is wasting valuable community resources and she should not be allowed to flood the system with complaint after complaint. If kids are too young to learn about racksm. sex, and violence in High School, we might as well ban Romeo & Juliet! One Flew Over the Cuckoo's Nest, To Kill a Mockingbird, and Huckleberry Finnil.

I just went through the entire list. The way they are getting away with this is they have put them into age groups. For instance, they have put "Al Capone Does My Shirts" for 8th, but this is totally inappropriate for any younger age group. The main thing at the high school level is NOT graphic sex, but instead lesbian, gay and nonbinary relationships, which are actually encouraged. They can get away with this because of the age group they are targeting.

My question is this: How will they make sure the books will be available to correct age groups only? Who will be responsible for vetting these books first?

I am looking into a policy change that libraries are an extension of the classroom and must follow the same standards.

Yes. Yes! We need to get Karen Butler to help with that. She has a great mind. Under the contract that the district signed for the digital ebooks (library books), it is written up as instructional software.

Is it true about the libraries in the schools are basically closed. I know I got a notice for my granddaughter to bring a book from home to read. She goes to BAS. I thought maybe they just don't have a library or they are not going to it this early in the year. I am just curious. I have no problem sending a book from home. Gives me all the control of what she reads on her personal time

The new state law requires every book to be vetted by an certified media specialist

At.some.schools it is going fairly quick at others longer.

Hi Kevin, do you have a map showing high school zones. I cannot find it on the focus link to main menu. I need to know the boundaries of tate and pine forest on 9 mile. My daughter is getting stationed back home. We need to make sure it's Tate district but she likes a

Good to hear sir. Thank you also, once again, for standing up for the public, ie. "We the People", during July's school board meeting when you said you did not want to deny the people of Escambia County the right to have public forum not at the tail end of the meeting and also to not have us have to turn in a form before the meeting even starts. I was so overwhelmed by those comments by the usual suspects; I was beside myself. So board member Slayton wants the public to have to come before the meeting to be able to turn in a permission slip to speak before the meeting even starts, and then board member Hightower wants the public to have to wait until the very end of the meeting to be able to speak anything that would be concerning them about education. So one member wants the public to appear before the meeting even starts, and then the other one would have us wait until the very end of the meeting to be able to speak. These two comments, and the desire of board member Slayton, that he stated that they've i already heard certain comments stated enough times, were astounding to me. Apparently since certain members of the public are stating, still, that th 🕠 on't want pornography in our solools that board

Apparently since certain members of the public are stating, still, that they don't want pornography in our schools that board member Slayton has apparently heard that enough, and no longer wishes to have to hear it any longer. The sheer facts that we have two adults in a school system that are defending children being able to look at pornography is a crime in and of itself. Both of these people should be punished by the State, beginning with incarceration, and I'm speaking quite frankly now. There should be no one who is legally able to show pornography to children.

Agree, The board just dropped the agenda item, but I will fight them again if they try again to change our policy on the public forum. I was not happy about them shutting down the young man quoting bible verses. I had a medical procedure that day and since I was sedated the doctor made me promise not to speak, only vote. The policy on the back of the speaking form does not have anything to prevent a citizen from

I will be ready next time.

It's preposterous. Why did they even think that we're there!? The public is coming to the meetings to bring the word of God and the gospel into our schools because it wasn't that long ago where it was there all over the country. The fact that it's been torn out and what has crept into its place you can see with your own eyes. We took the truth from being spoken in our schools which is the word of God because we gave in to the pagans about what should be taught or not taught and now we have gone so far as to have actual pornography in our libraries. Then they

Then they are going to lecture and say that they are being oppressed because we are speaking the truth. My problem is that the board tolerates Liars coming in and going on and on about their evil and wicked opinions that are actually all lies. There is no way that any school system \$150 years ago would have tolerated the public coming in and demanding that we have pornography for children in our schools. Everyone's mouth mouths would have dropped and they would have thrown that person out of town or worse. Now we have two board members who are perverts who are self-righteous about people speaking what is just and right.

It's really not a time for diplomacy. Why

board members who are perverts who are self-righteous about people speaking what is just and right.

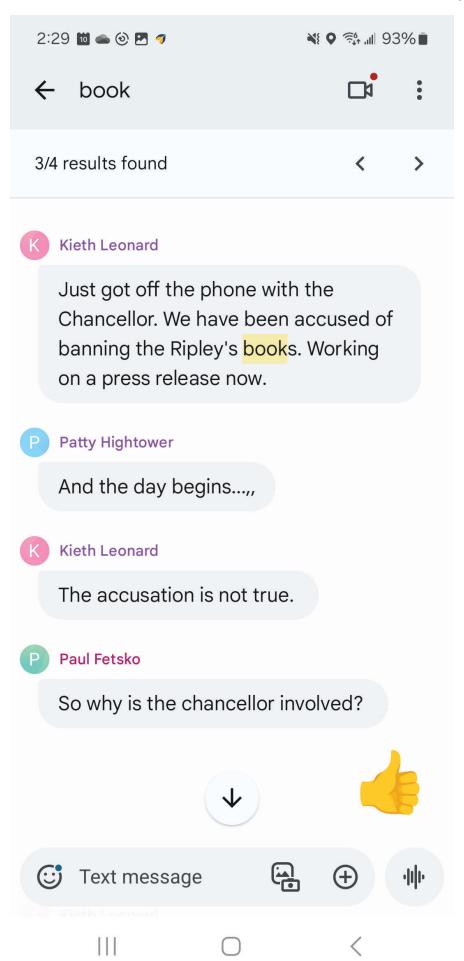

It's really not a time for diplomacy. Why are we speaking the scriptures! Because there is pornography in the school! I don't want to be lectured about bringing the scriptures to bear on the school situation when there is pornography being shown to children. It is ludicrous, but it is the state we are in because we tremble at those who desire to expose children to wicked things when we should rather tremble because of our responsibility before God to do what is right and just. We are the ones who have allowed this nation to slip into such a morass of wickedness by our lazy patrol, while we have been on duty sleeping or enjoying our common leisure instead of fighting against these things that have been all around us the entire time. Thankfully the Lord has roused people to take up arms and I do not mean that by literal weapons of course but that we should fight with the word of God and the truth and take a stand. The battle is the Lord's and I just look at how much He has done already and rejoice in it!

I brought up people being lazy about

I am strongly asking you to object to us having to give our address, which is something they have put in this new policy. There are many people that have been very abusive to me as I've been preaching the gospel out on the streets, and I think it is not relevant for the public to know where any of us live. I have been threatened to be stabbed and beaten up. Obviously I continue to do this because I do not fear people but I am also not trying to willingly lead people to my home! To require that opens us up to significant bodily harm and more trouble. Vicki Baggett has had her life threatened for some time now via email and phone calls. Please object to this part as far as the address is concerned. There is simply no reason for it.

Please take a stand against this filth. Latest find. Compliments of Pensacola High School, Washington High School, Pine Forest High School, Milton High School and Navarre High School. (Escambia County and Santa Rosa County schools).

Your children have access to this crap, purchased with taxpayers' funds. I am posting ONE excerpt from this particular book by S. King. Trust me there are several! I am leaving out some letters in this passage, of course.

"I beat you because I wanted to F--K you, Bevvie, that's all I wanted to do, I wanted to F--K you, I wanted to EAT you, I wanted to eat your PU--Y, I wanted to SU-K your CL-T up between my teeth, YUM-YUM, Bevvie, oooohhhhh, YUMMY IN MY TUMMY, I wanted to put you in the cage ... and get the oven hot ... and feel your C-NT ... your plump C-NT ...

and when it was plump enough to eat ... to eat ... EAT..." (p. 591)
